

Juan Agustín Zitelli

Systems Analyst & Fullstack JavaScript Developer 🧑💻

EXPERIENCE

Development intern

CAETI, Universidad Abierta Interamericana

Jul 2019 - Present - 6 months, Rosario, Santa Fe, Argentina

Investigation intern in software engineering. Presently using Python, Flask and JavaScript to prototype web apps to put future scientific papers into practice.

Web developer

Bi-Sports

Jan 2019 - May 2019 - 5 months, Rosario, Santa Fe, Argentina

Used PHP, MySQL and JavaScript to build an AlegroCart based software for a wide variety of clients. Worked with other developing tools like Git, Bitbucket and PHPMyAdmin.

Fullstack developer & volunteer

Global Shapers Rosario

Nov 2020 - Actualidad - 1 mes, Rosario, Santa Fe, Argentina

I'm currently helping to develop the "Sustainometer". An application made with React.js, Node.js, Express.js and PostgreSQL that given a user's input about their sustainable habits, it returns a score and advice on how to reduce carbon footprint.
